Notice of Public Informational Meeting:

Turnpike Road Energy Park Master Plan

Wednesday February 1, 2012 at 6:30 PM

(Snow Date: Feb 8, 2012)

Montague Public Safety Complex

Community Meeting Room, 180 Turnpike Road, Turners Falls MA

The Montague Planning and Conservation Department will host a public informational session regarding the future vision of 183 acres for municipal land off Sandy Lane. The Town is actively planning the productive reuse the property as a sustainable light industrial area that would incorporate solar arrays on the landfill, small industrial lots, a new public works facility, and conservation land. Planning consultants The Cecil Group, Inc will present the vision and provide the public an opportunity comment on an early draft of the master plan. All are invited and highly encouraged to attend. Your input is critical at this early stage of the plan. Light refreshments will be served. If you have and question please contact Walter Ramsey, Town Planner at planner@montague-ma.gov.
